

# Cleaning and finishing

## Preparation

Because sand residue or building dust can scratch the glass, it is recommended to rinse any possible contamination with plenty of water.

## Cleaning

With a sponge, shammy or window wiper you can clean the Van Ruysdael glass. Suitable are for example PH-neutral detergents and glass cleaners or alcohol. which are harder than glass and can scratch it, such as sharp knives, sandpaper or scouring pad.

# Finishing with Van Ruysdael Perfection<sup>®</sup>

Small remnants of Van Ruysdael Performance or Van Ruysdael Detail glazing materials or any black scratches can be removed with Van Ruysdael Perfection.

Apply with a clean, soft cloth a small amount Van Ruysdael Perfection on the glass surface. Rub the stain or scratch gently away and polish the glass with a soft cloth.
